Application Title:

Breast Cancer Navigation and Palliative Programme (BCNPP)

General Audience Summary:

Project PINK BLUE's Breast Cancer Navigation & Palliative Programme (BCNPP) is a bottom-top one-on-one support service where unemployed community health workers and retired midwives will be trained on professional palliative care for advanced breast cancer patients to ease their end of life time and diminish the effect of the disease on the family at home. While, a specially trained breast cancer survivor/oncology nurse navigates each patient through their breast cancer diagnosis, treatment and referral pathway to the trained palliative community health workers.
