

UICC Fellows come from around the globe & work in all areas of cancer research

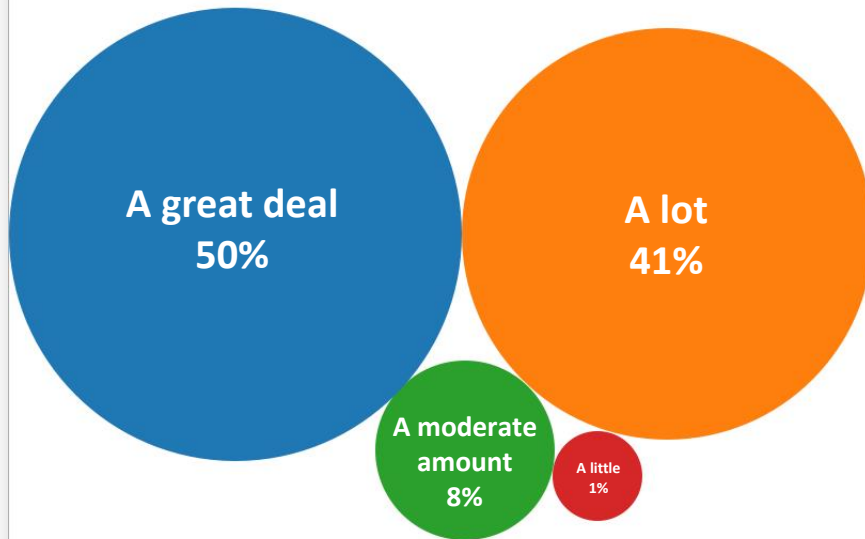

About Tableau maps: www.tableausoftware.com/mapsdata

UICC Fellowships: Realising the potential of cancer researchers worldwide

- The UICC has 3 Flagship Fellowship Programmes
- The Fellowship schemes range from 1 month to 1 year
- We have evaluated the performance of Fellowships over a 13 year period involving over 600 grantees

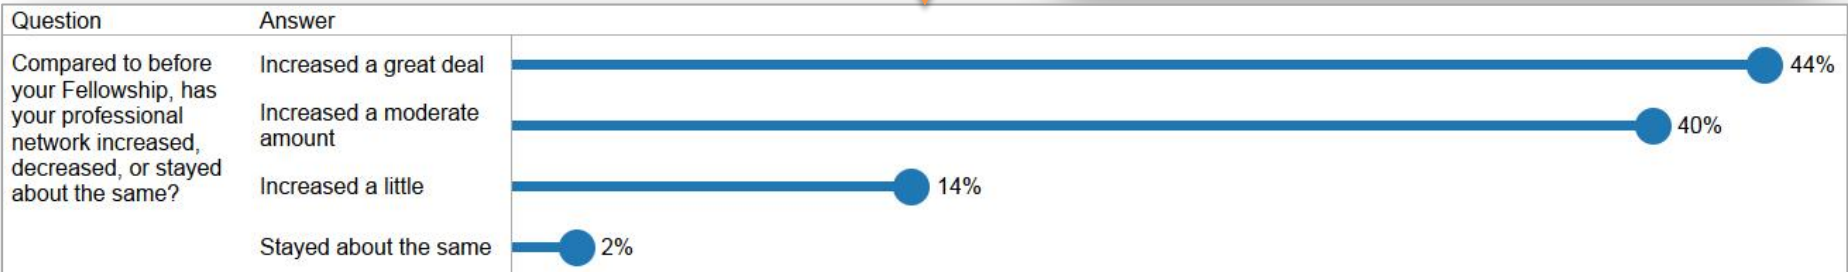

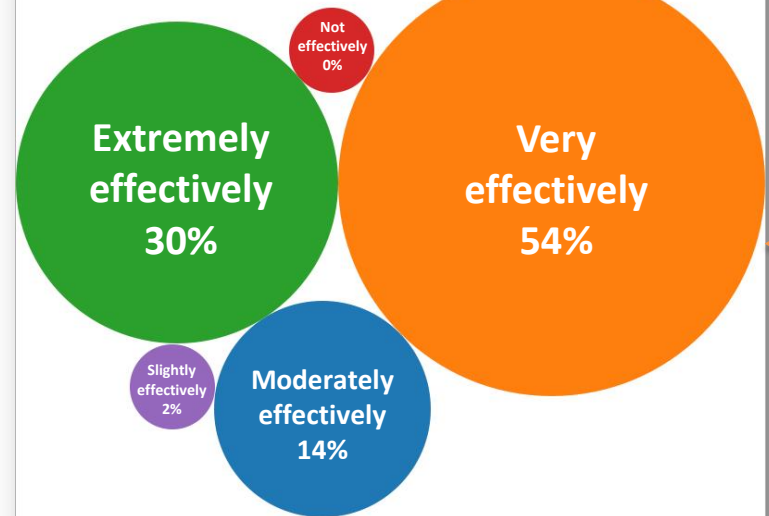

How much did your knowledge of your chosen discipline increase as a result of your Fellowship?

As a result of their Fellowship, grantees have increased knowledge, an expanded professional network & their new skills are valued by their Home Institute

How effectively were your skills put to use on return to your Home Institute?

Does the fellowship program offer a unique opportunity to foster INTERNATIONAL knowledge transfer?

Yes
