Invitation

Dear Attendees,

On behalf of the Vaccines Advisory Committee we take great pleasure in welcoming academic scientists, researchers, research scholars, students and experts of application fields to London, UK for the 3rd European Congress on Vaccines & Immunology to foster the advancement in the field by contributing with your expertise to what promises to be a very comprehensive and exciting conference, and to enjoy the globally famous major resort city.

The event will have Keynote speakers, Plenary speakers, Invited speakers and fresh contributed speakers. In addition, a variety of poster presentations along with workshops and special sessions would be interested in listeners.

The aim of the Vaccines 2020 is to promote quality research and real-world impact in an atmosphere of true international cooperation between scientists and engineers by bringing together again the world-class researchers, International Communities and Industrial heads to discuss the latest developments and innovations in the fields of Vaccines.

We sincerely hope that Vaccines conferences serves as an international platform for meeting researchers from around the world, widen professional interaction and create new opportunities, including establishing new alliances.

We are looking forward to seeing you at Vaccines 2020 in London, UK.

Sincerely,

Vaccines 2020
Organizing Committee
A Transformational Learning Experience

• Curated to address the concerns of today’s scientific world
• Be inspired by some of the world’s most renowned figures
• Stimulate new ways of thinking and provoke action.
• Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

July 15-16, 2020
London, UK
Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here’s why you associate with us

**Our International Open Access Journals:**

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

**Our International Scientific Conferences:**

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry’s high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

**Other salient features comprehend:**

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals
With over 25000+ Nutrition Researchers accessing the website, Vaccines 2020 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

**Vaccines 2020 Salient Features:**
In a world of information overload, we focus on the issues most relevant to today’s technical trends enabling our patrons to

- Congregate with most senior executives
- Nurture connexions
- Agenda format which incorporates ample Q&A time
- Partake in our revamped exhibitor expo sessions
- Meet and listen to the relevant clients
- Unprecedented growth creating an unparalleled market place

**How’s EuroSciCon different?**

- Exercises your creative instincts with the live knowledge experience
- It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- World’s leading industries and companies attend
- Career guidance for early career researchers and students
- Provides insights you need to take your research to the next level
- A huge conclave of high tech and science priests

July 15-16, 2020
London, UK
Why to attend???

Vaccines 2020 is aimed to give an opportunity that with scholars from around the world focused on learning about Vaccines & Immunology and its advances; this is the best opportunity to reach the largest gathering of participants from the Vaccines & Immunology community. It provides an explicit platform for presentations distributes information, meets with current and potential scientists. World-renowned speakers, the most recent techniques, developments, and the latest updates in Vaccines & Immunology are hallmarks of this conference.

About hosting organization

EuroSciCon is one among Europe’s largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Vaccines & Immunization
- Vaccine Research & Development
- Influenza And Respiratory Diseases
- Vaccines Bioprocessing And Manufacturing
- Vaccines Pre-Clinical Validation To Clinical Trials
- Anti-Microbial Resistance
- Vaccine Adjuvants & Delivery Technologies
- Cancer And Immunotherapy
- Vaccines Safety And Efficacy
- Veterinary Vaccines
- Vaccines for Unconventional Diseases
- Vaccines against Drugs
- Pediatric Vaccination
- Onco-Immunology
- Immuno-Toxicology
- Viral Immunology
- Parasite Immunology
- Neuroendocrine Immunology
- Psychoneuro-Immunology
- Ocular Immunology
- Transplantation Immunology
- Tumor Immunology
- Immuno-Informatics
- Stem Cell Immunology
- Immuno-Genetics & Immune Tolerance
- Immune Disorders
- Immunologic mechanisms
- Infectious Diseases
- Inflammation and Therapies
See your work PUBLISHED in one of our related journals

- Clinical Immunology and Infectious Diseases
- Archives in Cancer Research
- Journal of HIV & Retro Virus

July 15-16, 2020
London, UK
About Destination London

London, the capital city of United Kingdom, stands on the River Thames and is located southeast of the island of Great Britain. London covers an area of 1579 square kilometres and according to 2016 statistics. Greater London’s population was estimated to be 8.63 million. London is a leading global city excelling in the fields of arts, commerce, education, entertainment, Fashion, finance, healthcare, media, professional services, research and development, tourism, and transportation. As the world’s largest financial center, London serves as an attractive destination for international investors and businessmen. The headquarters of important banks like HSBC, Royal Bank of Scotland, Barclays and Standard Chartered are located here. The city has the World’s largest city airport. If we look at the cultural distribution of the city, London is often described as a cultural hub. It is home to a wide variety of people from different backgrounds and more than 300 languages are spoken. The host city also has some of the best medicine schools like The Imperial College London, the University College London, The King’s College London, Queen Mary’s University of London and St. George’s University of London. Funds for research are available from Research Councils, National Institutes of Health, European Commission, other UK Government Departments and also from commercial sectors like private companies. In 2016, the idea of a global research hub in London was put forward, to bring over ten thousand scientists and clinical researchers together in order to accelerate advancements in cancer science. The Buckingham Palace, the Warner Bros Studio, the Madame Tussauds wax museum, Westminster Abbey, and the London Eye are important tourist destinations in this city.
